In the Senate today a resolution was offered by Mr. Allen directing the Secre-

THE TRIAL OF MOLINEUX.

nature Introduced. NEW YORK, Jan. 48,-Roland B. Molineux entered the countroom at this morn-House of Representatives; Assistant Secre- Robert G. Cousins, Frank G. Clarke, Amos tary of State to inform the Senate whether ing's session of his trial for the alleged tary Allen, Dr. Wines, of the Census Bu-teau; the Fourth Assistant Postmaster of Mrs. Katherine Adams with no from the Transvaal Republic had been re-trace upon his countenance of any worry the Court of Claims; Senator Scott, of Massachusetss, and his aide; District States Government; for what reason such impressive scenes. At the close of the aft-Senator Fairbanks, Senator Proctor, Commissioners Wight, Ross, and Beach, recognition was refused and whether the ernoon sitting he had a long consultation

but the objection was overruled. The answer, it then appeared, was a blank form of diagnosis. The witness picked out exhibit "H." a request for a marriage guide, over the name of H. C. Barnet, and stated that he had sent the book asked for to H. C. Barnet at 257 West Forty-second Street.

C. Barnet at 257 West Forty-second Street.
Upon cross-examination the witness said he had known Molineux for some time.
Mr. Osborne objected on the ground that none of this had come out in direct examination and the recorder ruled that the defence could not examine on the question of his acquaintance with the Molineuxs at preesnt. The witness called on Molineux and his father at the time that the former's name first came out. The court sustained objections when Mr. Weeks tried to follow up this line of examination.

Edmund Barnet, a brother of H. C. Barnet, was recalled, and by his description of his brother's build and appearance gave testimony damaging to the prisoner.

He stated that he had found in his brother's effects a small box of a patent

brother's effects a small box of a patent medicine, containing pink or red capsules and some cotton. There was no writing

The capsules contained a white powder, which he had thrown away. He had kept the box. This testimony corroborated that of Hudson. The next witness called was Mr. Kelly, another han writing expert.

THE MASON AND DIXON LINE. Interesting Documents of the Survey

at Annapolis. ANNAPOLIS. Jan. 18 .- In connection with the re-marking of Mason and Dixon's line, for which an appropriation of \$5,000 will be asked of the legislature, to THE MISTAKE OF A MENDICANT. be used with a like appropriation from Pennsylvania, it may be stated that the land office of Maryland possesses the original field notes of the surveyors, Mason and Dixon, together with other manuscript and printed documents bearing on the Maryland and Pennsylvania boundary line. Mr. George H. Shafer, chief clerk of the land office, took these valuable historical documents to Washington a short time ago, where they were esteemed as priceless treasures by officers of the Ge odetic Survey and of the State Depart-

No. 3. Ancient boundaries of Maryland and Pennsylvania. Minutes of the joint commissioners of Lord Baltimore and the Penns from 19 November, 1760, to 9 November, 1765. This volume, also in manuscript, contains numerous autographs of men who figured in the early history of the State, including Geu, Horatio Sharpe, No. 4. Instructions to the Surveyors, 1762. Manuscript.

FLY-PAPER PROFITS. An Idea of the Money Made in the Business.

(From the New Orleans Times-Democrat.)
"I see that the big paint firm of Berry

"I see that the big paint firm of Berry Bros. & Co. figures as 'ne of the principal creditors of the American White Lead and Color Works." remarked a business man, "It may be interesting to note in connection that the Berrys are generally supposed to own the majority of stock in the Flypaper Trust.

"Fly-paper is something that any capitalist might well stick to—and that's no joke, either. It is made by simply coating the sheets with a solution of molasses and rosin, and as the cost of the raw material is next to nothing the profit is correspondingly large. When the stuft was was first put on the market it was manufactured in a very primitive fashiou, entirely by hand, but the demand rapidly increased to such proportions that special machinery was devised and a modern factory can easily turn out from 10,000 to 15,000 sheets a day, all boxed and ready for delivery.

is, one speets a day, an boxed and ready for delivery.

Nearly all the flypaper works are located in Michigan, and some time ago they were consolidated under one general management. It was then that the Berrys, who are commercial magnates in Detroit, are said to have gone in. I got my information from a very reliable source and was said to have gone in. I got my informa-tion from a very reliable source, and was told that the net profits of the trust last year were about \$600,000. Of course that isn't in it with such giants as the Rubber Trust and the Oil Trust, and the Steel Trust, but nevertheless it is a good deal of money to squander on flies."

His Wits Displaced by an Intended Victim's Appeal.

(From the New Orleans Times-Democrat.)

"There are a number of sturdy beggars in town at present," said a young grain man from Cotton Exchange place, "who pounce upon gentlemen accompanied by ladies and demand alms after the manner of footpads. They say the trodden worm turns occasionally, and the richest incident of the kind I have yet heard of was described to me yesterday by an eyewitness. It occurred last Monday night. The beggar was standing, it seems, on Customhouse Street, near the corner of North Peters, when along came a young man in evening dress, escorting a young woman. Peters, when along came a young man in evening dress, escorting a young woman, also in festive attire. The friend, who tells me of the affair, got a good lock at the couple under a street lamp, and says the young man had all the earmarks of a typical river front 'scrapper,' who had evidently hired a swallow-tail and was taking his best girl to some ball. The beggar saw them only in the dark, and must have thought he had easy prey in a pair of swells. At any rate he intercepted them with a demand for two bits,' and when they tried to slip by, snarled out that they could keep the money if they needed it more than he did.

The tough young man stopped and for a moment looked mournfully at the mendicant, as though he hesitated to tackle a disagreeable duty. Then he handed his hat and cigar to his companion. What ensued my friends describes as hewildering.

sued my friends describes as bewildering

ON TRIAL FOR HIS LIFE

Benjamin H. Snell's Case Brought Before Judge Clabaugh.

Motion for a Further Postponement Overruled and the Work of Securipg a Jury Begun-The Appearance of the Prisoner-The Weisenberger Family in the Courtroom.

Benjamin H. Scell was put on trial today before Justice Clabaugh for the murder of thirteen-year-old Lizzie Weisenberger on the morning of August 6 last, The defendant appeared haggard and worried when he entered the court room. His presence was more than the Weisenbergers, mother and sisters of the murdered girl, could bear. They were on the verge of collapsing, and were removed to the witness room where they remained during the rest of the day. The father of the defendant, C. B. Snell, from Augusta, Ga., was present at the opening of the proceedings, but the aged mother of the prisoner was too weak after her journey from the South yesterday, to withstand the grang ordeal and did not attend.

The defendant, with the exception that he appears to have lost flesh during his incarceration, looked much the same as on the day he was arraigned for the crime. He was accompanied into the court room. gers, mother and sisters of the murdered

He was accompanied into the court room by Deputy United States Marshal Spring-man, and took his seat immediately behind his counsel, Messrs. Frederick Mitchell and Charles H. Turner.

nurderer.

Among these were many women who re-nained in the building the greater part of

the day. As soon as Justice Clabaugh took his As soon as Justice Clabaugh took his place on the bench, District Attorney An-derson announced that the Government was ready to proceed with the trial. Mr. Turner, the senior counsel for the de-fence, then made a final appeal for post-

fence, then made a final appeal for postponement on the ground that his associate
attorney, William Fleming, of Atlanta,
Ga., is ill at the Columbia Hospital, and
could not participate in the trial.

The mo on we exposed by assistant
District Attorney Gould, who stated that
on last Friday, who a continuance was
made from Tuesslay, the time set for the
trial, until today, it was understood no
further postponement would be asked for.
In addition, be said that Mr. Fleming took
to active part in the preparation of the In addition, he said that Mr. Fleming took to active part in the preparation of the case, and was not even known to be fill until Monday. Aside from this. Mr. Gould said, it was only fait to state that District Attorney Anderson has left a sick bed, against the advice of his physicisu, to be present at the trial.

Justice Clabaugh, on hearing the statements of coursel, overruled the motion for

ments of counsel, overruled the motion for continuance, and ordered the trial to

The empanelling of a jury was then com-The empanelling of a jury was then commenced, and it was evident from the searching manner in which the jurors were examined that it would take a long time to complete the panel. The first member of the regular panel for the month of January, F. H. Youngs, when called stated that he had made up his mind as to the innocence of the defendant, although he had not expressed his opinion. He also stated that he was also oppose: to capital punishment. He was expressed to capital punishment. pose: to capital punishment. He was ex-cused, as were Talesmen Roum and Cope-land, the former because he was opposed to capital punishment, and the latter by reason of prejudice against the defendant. Several other members of the panel were

MONEY IN SMALL THINGS.

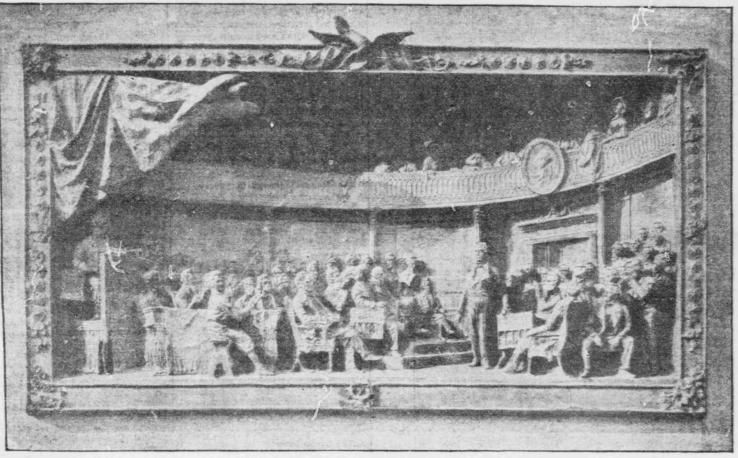

Inventors Who Have Made Fortunes Out of Odd Devices,

(From the Patent Record.) (From the Patent Record.)

The inventor of the roller-skate made £260,000. The gimlet pointed screw has been productive of more wealth than most silver mines. The fortune made by the man, who first thought of copper tips to children's shoes would be under-estimated at £100,000 in first-class securities. Even a little thing like the common needle threader is worth £2,000 a year to its owner; while the "return ball," or wooden ball fastened on a piece of elastic—yields £10,000 per annum.

000 per annum.

This is only one of many profitable toys; we may mention the "Dancing Jim Crow," which produces £15,060 a year; the "Wheel of Life," worth in all fully £100,000; the walking figure of "John Gilpin," and the 'Chameleon top," The sale of the last named toy has been enormous, and the profits also enormous. Indeed the "Cha-meleon top," as a profitable invention, has probably excelled any one discovery in modern times, however valueble and im-portant it may have been.

THE REPLY TO HAYNE.

Ross, Senaior Platt of Connecticut, and Colonel Bright, sergeant-at-arms of the enate. Mr. Hutchins occupied a box.

When the music and applause incident to the entrance of the President had died away, and after a brief silence, Mr. Chandler walked to the quartered cak desk in the centre of the stage and said in his familiar and penetrating tones, that the Rev. Mr. Milburn, Chaplain of the Senate. would offer prayer. The venerable blind chaplain, whose white hairs and spare form are so familiar at the Capitol, moved timidly toward the footlights and began to pray. His slow, solemn and noble words reached into the farthest corners of the theatre and impressed all persons present

At the close of the invocation Mr. Chandler delivered his address in which he paid tribute to the love of State and country of the donor of the statue. Three times was Mr. Chandler interrupted by applause. At the conclusion of his address Secretary Long, who served as the personal representative of the President, delivered his speech, accepting the gift on behalf of the

The Secretary of the Navy stood to the right of the speaker's table while delivering tue speech. This was followed by the commemoration address by Senator Lodge, When Mr. Lodge had concluded, great waves of applause swept through the house now rising to a great height, then dying almost away, and gathering new energy, rolling on and on until Mr. Lodge was compelled to leave his chair, walk to the

ersection of Massachusetts and Rhode

temporary restraining order, but it was learned that in all probability no action will be taken with this view, until after the Metropolitan Company filed its answer to the complaint of Mrs. Leiter.

As explained in the morning edition of The Times, Mrs. Leiter owns about \$90,000 worth of holdings in the Metropolitan Railroad Company, and that since the organization and incorporation of the Washington Traction Electric Company, complains that she does not know how her interests are secured. For this reason she asks that the cured. For this reason she asks that the Metropolitan Railroad Company be com-pelled to make her an accounting.

PRINTING CENSUS RETURNS. A Bill Concerning the Matter Dis-

cussed in the House. In the House today Speaker Henderson announced the appointment of Representa tives Russell of Connecticut, and Lanham of Texas, as managers of the Columbia Institution for Deaf and Dumb. It was decided to set aside February 3, for memorial exercises over the late Representative Ermentrout of the Ninth Pennsylvania dis-

trict.

The Senate Ceasus bill, providing for an increase of the clerical force, a general enumeration of the deaf, dumb, and blind inhabitants, and authorizing the Director, if necessary, to contract for printing the reports outside the Government Printing Office, was taken in in Committee of the Office, was taken up in Committee of the Whole, Mr. Cannon of Illinois in the

position. Mr. Hopkins, Chairman of the Committee on Census, explained why, in the opinion of the committee, the proviwas desirable, if not necessary. That the results of the enumeration might be promptly published, Congress at the last ession required the work to be done by June 30, 1902. The results of the Eleventh Census were not published for nine years after the date of the enumeration. Mr. Southard of Office enquired if that was not due to the delay on the compila-

tion of the statistics.

Mr. Hopkins admitted that part of the delay was due to that cause, but asserted that much of it was chargeable to the Government Printing Office. The volume of vital statistics, he said, had been held one year four months, sixteen days; agri ures, one year, one month and twenty

Now, if the work could be done at the Government Printing Office within the time required by law with his present force and facilities he would be glad to have it done there. The Public Printer was his personal friend, a capable official, and if anybody could do the work he could. But body could do the work he could. But the office had held the volumes of the Eleventh Census as stated. Mr. Livingston of Georgia called atten-tion to two sections in the printing law which contravened the proposed section.

A REPORT FROM MR. CHOATE.

can Goods Seized by England. Ambassador Choate, who has been mak ing an earnest effort to ascertain the pres ent whereabouts of the American goods which were on the British steamers Mashona and Beatrice and the Dutch steame Maria, when those vessels were seized by a British warship, was able to report to the State Department by telegraph today

re says that the Maria's cargo is at the unitom house at Durban, subject to the disposition of the owners. The Mashona's aargo is believed to be still on board that ressel at Cape Town, but some confusion n regard to her manifests has prevented definite assurances on that point. Beatrice is at East Liverpool, and the British Government is endeavoring to learn from its officials at that port where the cargo of the vessel is.

(From the Cincinnati Enquirer.) (From the Cincinnati Enquirer.)
Attorney General Griggs has declared his willingness to have his department investigated.
Everybody knows all about it now, and an official investigation could not make it much worse, it is principally notable for lukewarmness in the matter of the trusts.

(From the Philadelphia Record.)

The Hamburg-American Packet Company intends to use a new fuel on its freight steamers that are now being built for the East Asian trade. This fuel is a semi-fluid petroleum which is imported from Borneo. It is not liable to spontaneous combustion. It economizes space and allows of a reduction in the number of firemen.
